

Teaching notes for Photocopiables

Photocopiable activity 1 (Unit 1 page 12)

- Hand out copies of Photocopiable activity 1 (page T90), one for each student. Read through the questions in the left-hand column with the class and check comprehension. Tell students to complete the first column about themselves. They write Yes or No.
- Demonstrate how students ask and answer the questions to find out about their friends. They answer using Yes, I do / No, I don't.
- Students take their surveys and a pencil. They find a friend. They both write the friend's name at the top of the first "My friend" column. Then they exchange information by asking and answering questions. Monitor and check they are asking full questions and answering Yes, I do or No, I don't. Clap your hands. Students find a different friend, write his/her name in the second "My friend" column on the sheet and ask and answer.
- Elicit information from students by asking (Name), tell me about one of your friends. Students respond, e.g., *Johanna doesn't like shopping. She wants to be a doctor.* Prompt students to join sentences with *and/but* as appropriate. Practice short third-person answers by asking, e.g., (Name), does Maria enjoy reading about science?

Photocopiable activity 2 (Unit 2 page 21)

- Hand out copies of Photocopiable activity 2 (page T91), one for each student. Check understanding of the prepositions, using classroom objects to demonstrate. Teach *above* and *below*.
- Read the instructions for Activity 1 and check understanding. Students work individually. They circle the preposition they want to complete each sentence. Then they draw each object in the right place in the picture of the room in Activity 2. Fast finishers can color the objects and furniture in the room.
- Pair up students who don't usually work together (students sitting next to each other might have looked at each other's pictures). In Activity 3, students take turns telling each other where their objects are and drawing them.
- If students had time to color, they can also tell their partner what color the objects are, e.g., *The couch is green.*

Photocopiable activity 3 (Unit 3 page 31)

- Hand out copies of Photocopiable activity 3 (page T92), one for each pair of students. Students cut out the word cards.
- Students work in their pairs. Student A matches an activity card with a day/time card, e.g., *play soccer* with *in the morning*. He/She asks a question using these phrases, e.g., *Do you play soccer in the morning?* Student B answers, e.g., *I sometimes play soccer in the morning.* If the two students agree, they make a sentence using the word cards, e.g., *We sometimes play soccer in the morning*, and put it to one side. Monitor and check students are forming the sentences correctly.
- The activity continues until pairs of students have made several sentences or until a certain time has elapsed.

Students then copy the sentences into their notebooks.

- Elicit sentences from different pairs.

Photocopiable activity 4a (Unit 4 page 39)

- Hand out copies of Photocopiable activity 4a (page T93), one for each student. They cut out the cards. They color one small part of each card so they know which are theirs after the game.
- Hold up each card in turn and elicit a sentence, e.g., dirty shoes – *You must clean your shoes.* Example responses: messy bed – *You must clean your bedroom. / You must make your bed.*
hungry dog – *You must feed the dog.*
messy desk – *You must clean your desk.*
long hair – *You must go to the hairdresser's.*
pile of letters – *You must read/answer your letters.*
dirty plates – *You must do the dishes.*
jacket on the ground – *You must pick up / wear your jacket.*
TV – *You can watch TV.*
park gates – *You can go to the park.*
ice cream cone – *You can have an ice cream cone.*
movies – *You can go to the movies.*
- Students play in pairs. They put their cards face down on the table and mix them around. They take turns flipping over two cards and provide the response for both. If the cards are the same, they keep them. If not, they turn them face down again. At the end, the student with the most pairs is the winner. Students put their cards in envelopes for another lesson.

Photocopiable activity 4b (Unit 4 page 40)

Note: Instructions for this activity also appear on page T40 (Activity 12).

- Review the use and meaning of *must*. Elicit some of the school rules from the previous lesson. Students open their Student's Books to page 40. Focus students on Activity 12 and the activity instructions. Ask two students to read the speech bubbles aloud. Ask *Can Vicky and Sam play tennis on Friday?* Elicit *No, they can't.* (Sam must go to the doctor.) Say *You must ask more questions to find a day when Vicky and Sam can play together.* Check understanding.
- Divide the class into pairs (A and B). Hand out one part of Photocopiable activity 4b (page T94) to each student in the pair (Vicky's schedule to Student A and Sam's schedule to Student B). Ask questions about the two schedules, to check students understand what the notes mean and encourage them to give reasons, e.g., *Can Sam play tennis on Saturday?* (Yes, he can.) *Can Vicky play tennis on Saturday?* (No. She must go to her grandma's house.) Say *They can't play tennis on Saturday. You must find a different day.*
- Students take turns asking and answering about the two children's schedules, following the model on the Student's Book page, and find a time when they can play tennis. Remind students not to look at each other's diaries. Monitor and help/prompt. Encourage students to make full sentences when they reply. Set a time limit for this part of the activity, e.g., five minutes.
- Elicit the answer (Thursday).

Photocopiable activity 5 (Unit 5 page 48)

- Hand out a copy of Photocopiable activity 5 (page T95) to each student. They cut out the cards. Students make a dot or something similar on the cards so they can identify their own set of cards at the end of the game.
- Demonstrate the game. Elicit that the cards with words and the cards with pictures have different shapes. Tell students that the square cards are “illness” cards. Turn over a square card. Say a sentence to go with the picture on the card, e.g., *I have a cough*. A student turns over a triangular “word” card. He/She makes a sentence using the prompt word on the triangular card, e.g., *can – You can watch TV*. Check the example for *can/can't* is for permission, not ability. Keep the illness card and the word card. Repeat, with a student taking a square card and you taking a triangular card.
- Students play the game in pairs. They put all their cards face down on their desks and take turns starting. Monitor and help.
- At the end of the game, elicit some of the students’ sentences. Students put their cards into an envelope for use in another lesson.

Photocopiable activity 6 (Unit 6 page 57)

- Show students your finished die (with an adjective written on each face). Hand out a copy of Photocopiable activity 6 (page T96) to each student. Check they understand where to cut before handing out the scissors. Students cut out their die template.
- Individual students choose any six adjectives from the lesson (brainstorm them on the board if necessary) and write one clearly on each face of their die. They can decorate the faces.
- Hand out the glue and show students step-by-step how to make the die. Students copy you and make their die.
- Students work in pairs. They each throw their die at the same time. One student makes a sentence using both words on the die. The other student writes it down. They throw the die again and students reverse roles. Pairs swap papers with other pairs and correct their sentences. They award one point for a semantically correct sentence (spelling slips don’t count against them). Congratulate pairs with the most points.

Photocopiable activity 7 (Unit 7 page 68)

Note: Instructions for this activity also appear on page T68 (Activity 13)

- Demonstrate the activity, using Parts A and B of Photocopiable activity 7 (page T97). Show students the two texts and tell them that they have different information. Invite a student to the front and give him/her Part A. Read the first part of B (*Hippos and*) and wait for the student to read aloud the next part of the text from his/her copy (*elephants are both*). On your copy of part B, show students how to write this part of the text into the blank.
- Hand out a copy of Photocopiable activity 7 to each pair: part A to one student and part B to another. Check students know what to do (take turns reading aloud the missing text on each other’s papers and writing down the phrases so they both have a complete version). Remind them not to look at each other’s paper. The first time, they read the whole text aloud, taking turns saying the words from the sheet. The second time, they each write the missing words on their copy. Monitor and help.
- Students look at each other’s papers to check.

Key:

Hippos and elephants

Hippos and elephants are both very big and very heavy. Both are gray, and both have four legs and a big head. They can swim and they can run, but they can’t jump. Hippos and elephants eat a lot of grass and plants. Elephants eat their food during the day, but hippos like to eat at night. During the day they swim in rivers and lakes.

There are two different kinds of elephants, the African elephant and the Asian elephant. African elephants are bigger than Asian elephants, and they have bigger ears. Hippos live in Africa. They run faster than elephants and faster than humans, too!

Photocopiable activity 8 (Unit 8 page 73)

- Elicit the weather words from students using the flashcards.
- Hand out a copy of Photocopiable activity 8 (page T98) to each student. Elicit the names of the different features in the large picture of the landscape (*city, mountains, river, lake, forest, fields, island*). Students color the weather symbol cards at the bottom of the page and cut them out. Hand out the poster putty.
- Students work in pairs. It’s best if they put a bag or large book upright between them so they can’t see each other’s pictures. Using the poster putty, Student A secretly sticks the weather symbols where he or she wants on the large picture on Photocopiable activity 8. Student B asks questions, e.g., *What’s the weather like in the mountains?* and sticks the appropriate weather symbols in the same place on his/her picture. Monitor and check that students are not looking at each other’s pictures. When they have finished, they compare pictures. They take the weather symbols off and repeat, this time with Student B sticking the symbols and Student A asking.

Photocopiable 1

Name:

Do the survey with your friends.

Do you ...	Me	My friend	My friend
like shopping?			
want to be a doctor?			
enjoy reading about science?			
like riding your bike?			
like baths?			
like dogs?			
enjoy painting?			
enjoy learning English?			

Photocopiable 2

Name: _____

1 Read and choose.

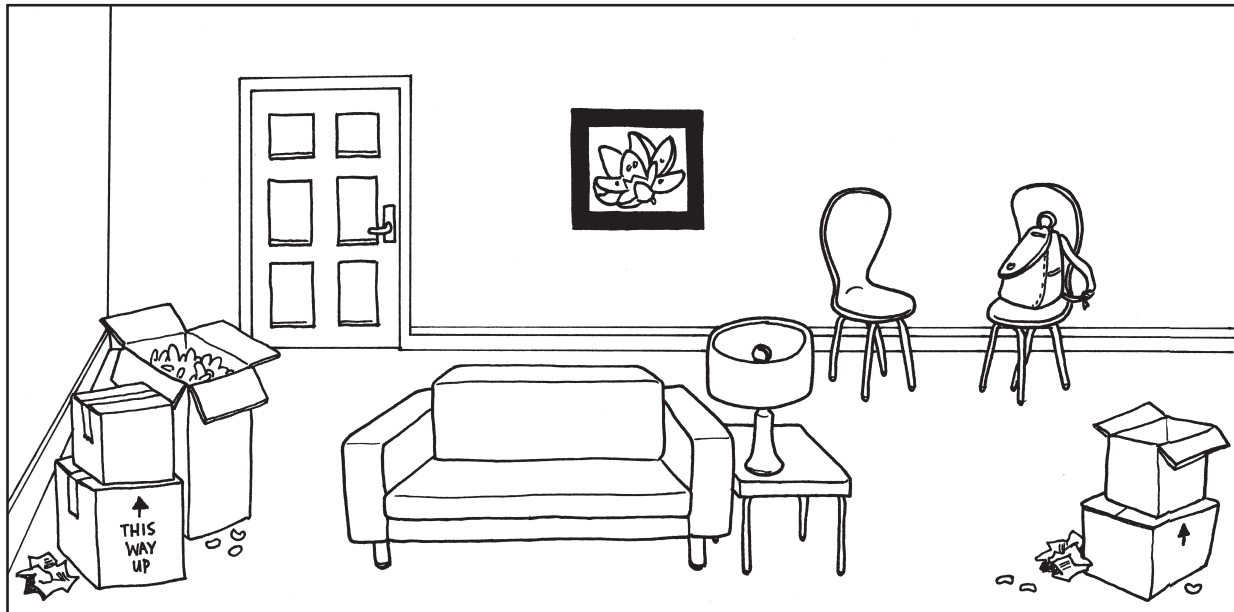

Her comic book's *next to* / *under* / *on* the couch.

Her pet bird's *above* / *on* her head.

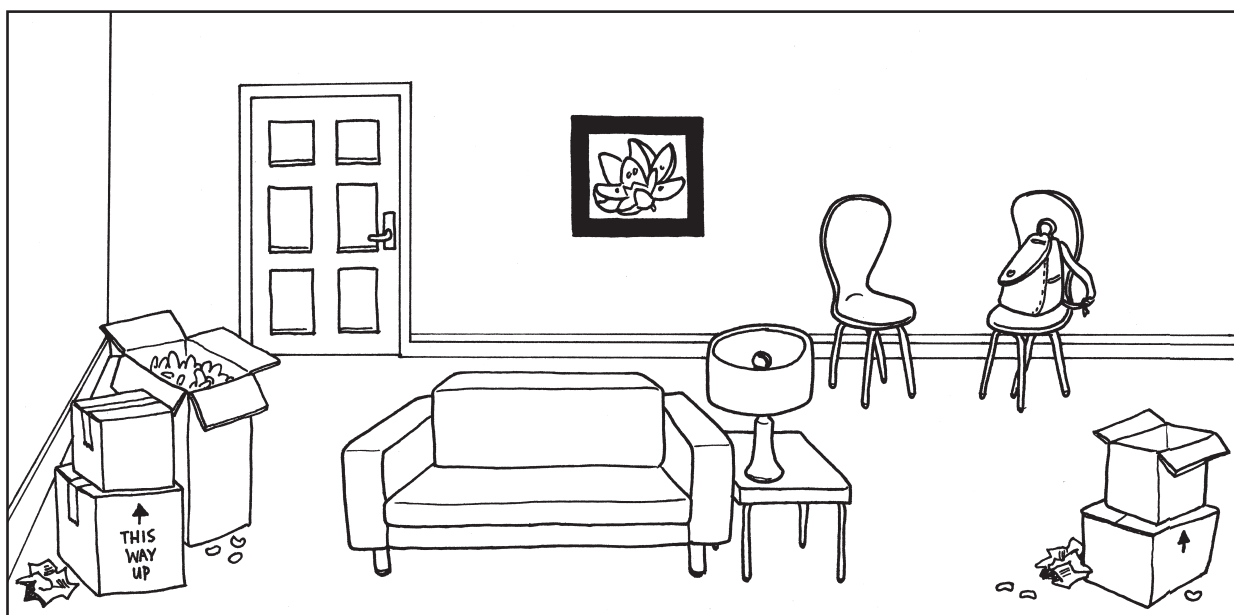

The TV's *above* / *below* the picture.

Eva's *between* / *next to* the chairs.

2 Complete the picture.

3 Listen and draw.

Photocopiable 3

Name: _____

We	never	play	tennis	on Mondays.
We	always	play	soccer	on Saturdays.
We	sometimes	watch	TV	on Sundays.
We	always	do	our homework	after school.
We	sometimes	listen	to the radio	in the morning.
We	always	read	comic books	before bedtime.
We	never	speak	English	on Wednesdays.
We	sometimes	go	swimming	in the afternoon.
We	never	go	to school	during vacation.
We	sometimes	play	computer games	in the evening.
We	always	play	in the park	on Thursdays.

Photocopiable 4a

Name: _____

Photocopiable 4b

Name: _____

A Ask and answer. Find a time when Vicky and Sam can play tennis together.

Monday

Tuesday

go to my swimming lesson

Friday

Wednesday

go shopping for new school shoes

Saturday

go to my grandma's house

Thursday

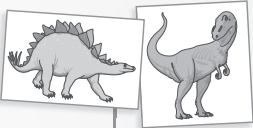

Sunday

B Ask and answer. Find a time when Vicky and Sam can play tennis together.

Monday

go to the library

Tuesday

Friday

go to the doctor

Wednesday

Saturday

Thursday

Sunday

go to Uncle Fred's house
