They fold the page down the middle so that they can see the pictures and the blanks for the words. Without looking, they write the words in pencil, using the pictures to help. They check in pairs, asking, e.g., *How do you spell "toothache"?* They don't look at the words on the right. Sleep and rest Exercise Healthy eating

1

For a healthy body, it's very important to eat the right food. We need to eat different kinds of fruit and vegetables every day. Drinking water is good for us, and we need to drink a lot of it every day. Cake and candy can be bad for our teeth.

2

Exercise is good for our bodies. We can run and swim or play sports like basketball and tennis. It's important to move our bodies to be healthy.

3

Our bodies need rest, too. Everyone needs to sleep, and children need to sleep about 10 hours every night.

3

Quiz

- 1 What must we eat to be healthy?
- 2 Name three things we must not eat a lot of.
- 3 What must we drink to be healthy?
- 4 How many hours must children sleep a night?
- 5 What can we do to exercise? Name three things.

OBJECTIVES: By the end of the lesson, students will have read about how to be healthy and done a quiz.
