

Teacher's notes

Reinforcement worksheet 1

- Students follow the letter trail in the word maze from *In* to *Out*. They write the words in the patients' answers. They then copy each of the remaining letters (in order from left to right and top to bottom) onto the dashes to find the doctor's question.

Key: What's the matter? 1 temperature, 2 headache, 3 toothache, 4 stomachache, 5 earache, 6 backache.

- **Optional follow-up activity:** Students draw an empty grid in their notebooks to prepare a similar puzzle for a friend, using the words *cough* and *cold* and two words from the trail above.

Reinforcement worksheet 2

- Students cut out the two spinners, mount them on thin cardboard, and push pencils through the centers. They spin spinner one to write the *don't* sentence and spinner two to write the *must not* sentence. They then check the sentences if the combination makes sense, and cross them if they don't.
- **Optional follow-up activity:** Students work in pairs, A and B. They take turns spinning the *must not* spinner, then they both spin the *don't* spinner. They get a point if the two sentences go together. The winner is the player with the most points.

Extension worksheet 1

- Students use the information from the chart to complete the dialogs.
- **Optional follow-up activity:** Students work in pairs, A and B. Each student thinks up a new combination of ailments. Student A is the doctor and B the patient, and then they swap roles.

Extension worksheet 2

- This can be done as a listening exercise (Track 12) or a reading exercise. Students look at the comic strip on page 51 of the Student's Book and use the information to solve the crossword puzzle.

Key: 1 beautiful, 2 too, 3 stomachache, 4 choose, 5 four, 6 carrot, 7 toothache, 8 lemon.

- **Optional follow-up activity:** Students think of one more word to add to the crossword puzzle and write the clue for their partner to solve.

Song worksheet

- Students listen to the song (Track 13) twice and decide which group of song lines goes where. The first time they listen, they write the letter and the second time, they check their answers. They then copy the lyrics onto the lines in the correct order.

Key: See Student's Book, page 53.

- **Optional follow-up activity:** Students work in groups. They take turns singing/saying one of the pairs of lines. The first person to sing/say the following pair takes the next turn.

Topic worksheet

- Students count how many times in a minute they can do the actions. They write their answers in the chart.
- **Optional follow-up activity:** Students mingle asking *How many times in a minute can you ... ?* They write the answers in the chart and compare scores.

Unit 5

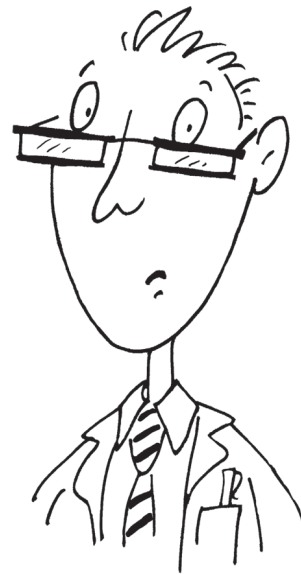

Reinforcement worksheet 1

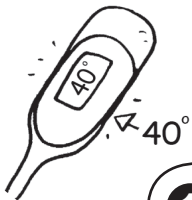

Look, follow, and write.

In →

t	w	h	t	o	a	t	r	a	c
