2. Which part of a pear tree do we eat?
3. Which part of a pea plant do we eat?
4. Which part of an apple tree do we eat?
5. Which part of a cabbage plant do we eat?
6. Which part of a spinach plant do we eat?

WB60. ACTIVITY 1. Write the words.

- Tell students to open their Workbook to page 60. Focus them on the pictures and the words in the box. Direct them to the activity instructions and the example. Elicit what they have to do (label the pictures). Students work individually and label the pictures in pencil. They check in pairs. Monitor and check.

Key: b lettuce, c carrots or roots, d carrots or roots, e orange tree or fruit, f orange tree or fruit, g sunflower or seeds, h sunflower or seeds

WB60. ACTIVITY 2. Which part do we eat? Complete the chart.

- Focus students on the chart in Activity 2 and on the question. Say *Look at the example. Which part of a plant are potatoes?* Elicit *Roots*. Students complete the rest of the chart in pairs, using the words in the box. Monitor the activity and help as necessary. Check with the class.

Key: Roots: carrot; Seeds: pea, sunflower; Leaves: spinach, lettuce, cabbage; Fruit: orange, apple, pear

Extra activities: see page T106 (if time)

Optional activity

- Unit 6 Topic worksheet from *Teacher's Resource Book 3* (pages 50 and 56).

Ending the lesson

- Review with students what they learned about in today's lesson. Play a round of the 1, 2, 3 game. The first student says *1, 2, 3 potato* (or any other food item), the next student repeats the process saying *1, 2, 3 cheese* (or any other food item). Go around the class in this way. Each student must say a different food from the rest of the class and say it quickly (on the count of three); if not, they are eliminated. The game continues until one student is left. He/she is the winner.

OBJECTIVES: By the end of the lesson, students will have talked more about plants and completed a project.

● **TARGET LANGUAGE**

Key language: fruit, leaves, roots, seeds, plant

Additional language: Do people eat ...? Yes/No, they eat ... , air, carbon dioxide, grow, ground, plate

Review: healthy, need, food, eat, drink, oxygen, water, sun

● **MATERIALS REQUIRED**

Project: A carrot top, a small plate or bowl, water. You will need project materials for each group of four students.

Extra activity 2: Word train materials from Student's Book pages 17, 25, 35, and 43 Extra activity 2, a piece of paper for the "wagon" for the words for this lesson.

Warmer

- Draw a simple picture of an apple tree on the board, with roots, leaves, and fruit visible. Elicit the different parts of the tree and label your picture. Review what students remember about the parts of plants we eat.

SB61. ACTIVITY 3. Ask and answer.

- Brainstorm fruit and vegetables from the previous lesson. Write them on the board.
- Tell students to open their Student's Book to page 61. Focus them on the photograph and on the speech bubbles. Invite two students to read the question and answer. Check comprehension. Say them again. The class repeats in chorus. Draw attention to the box at the top of the page. Make sure students know what to do. Elicit another question if necessary (e.g., *Do people eat the seeds of an apple?*). Students work in pairs. They take turns asking and answering about the different foods on the board. Monitor and check language. Elicit example exchanges from confident pairs.

SB61. ACTIVITY 4. Read, look, and answer.

- Focus students on Activity 4, the text and the larger picture of the man watering a plant. Read the text line by line with the class. Check comprehension of *air* and make sure students know the difference between *oxygen* and *carbon dioxide* (use the chemical symbols for these gases (O_2 and CO_2) if students have studied them already in their science classes). Check/teach the meaning of *grow* and *ground*. Use the picture to help understanding of the things a plant needs to grow.
- Read the two questions *Which plant is healthy?* and *What do the other plants need?* aloud. Make sure students understand *healthy* and *need*. Briefly discuss in L1 how we can see that a plant is healthy (the leaves are green, there are flowers, etc.). Students work in pairs. They look at pictures 1–3 and decide which is the healthy plant. They talk about what the other plants need. Elicit answers.

Key: Plant 2 is healthy. Plant 1 needs the sun. Plant 3 needs water.

SB61. PROJECT. Grow a plant.

- Focus students on the photographs. Elicit what students are going to do (grow a plant). Find out if any students have grown a plant before.
- Show students the items they'll be using. Make groups of three or four. Students give their group a name related to plants, e.g., *Oranges*. Give students the relevant materials. They water the carrot top. Make sure they don't use too much water. Groups label/name their plate and place it on a windowsill or close to the window.
- Twice a week, students check on their plant and note what is happening. They record the results in their notebooks: date, number of leaves, height, etc. After about a month, students make posters in their groups. They copy their notes onto the poster. They can include drawings of their plant, too. Help them with language as necessary, e.g., *It has (four) leaves today. There's a new shoot. It's (3) cm tall. It's green. We think it's dead. It needs (water). It needs more (sun).*

WB61. ACTIVITY 3. MOVERS Reading and Writing, Part 1.

Look and read. Choose the correct words and write them on the lines. There is one example.

- Focus students on the instructions and the example. Check understanding. Review *country* and features of the country from Unit 6 (*lake, grass, forest*, etc.). Point out that there are eight pictures but only seven answers, so students will have one picture left over. They work in pairs and match the definitions with the pictures. Check by eliciting the question from one student and the answer from another. Elicit from the class if it's correct.

Key: 1 grass, 2 a picnic, 3 a forest, 4 a tree, 5 a field, 6 a leaf

Extra activities: see pages T106–107 (if time)

Ending the lesson

- Review with students what they did in today's lesson and which activities they liked best from this and the previous lesson and why.
