

Teacher's notes

Reinforcement worksheet 1

- Students look at the pictures and read the clues to complete the crossword puzzle.

Key: Across: 1 leaf, 2 river, 3 plant.

Down: 3 picnic, 4 lake, 5 grass, 6 forest, 7 flowers.

- Optional follow-up activity:** Students think of one more word to add to the crossword puzzle and write the clue for their partner to solve.

Reinforcement worksheet 2

- Students use a die or the spinner from page 39 to move up and down the statements and questions for the punctuation marks. With the first roll/spin, they land on an exclamation and with the second, a suggestion. They then write the sentences on the lines below. If the two make sense together, they write *Yes, please.* and if not, *No, thank you.*
- Optional follow-up activity:** Students work in groups of four. One student makes a statement about a problem. The first student to offer a sensible suggestion takes the next turn.

Extension worksheet 1

- Students look at the picture and label the places *forest, river, lake, or field*. They then read the text and transfer the information to the chart (by putting check marks and crosses). They then figure out the name of each of the characters.

Key: painting – Danny, with sheep – Vicky, fishing from boat – Jill, in forest with dog – Mary, fishing in river – Bill.

- Optional follow-up activity:** Students work in groups of four. One student describes the likes and dislikes of one of the characters (changing the order of activities in the chart, for example, *She likes painting. She doesn't like water. She likes animals, but she doesn't like fishing.*). The first student to guess which character it is takes the next turn.

Extension worksheet 2

- This can be done as a listening exercise (Track 14) or a reading exercise. Students decide which sentence goes in each blank and then write the numbers in the boxes.

Key: See Student's Book, page 59.

- Optional follow-up activity:** Students work in groups of four. Together they decide on four of the story frames and each student then cuts out these four frames. They then shuffle all the cards together and deal them out equally. They say *1, 2, 3, pass!* then discard one card face down in front of the player on their left. Each player picks up the new card and decides which card to discard next. The winner is the first player to end up with four cards the same.

Song worksheet

- Students listen to the song (Track 15) and identify the pictograms. They then write each missing word on the dotted line.

Key: See Student's Book, page 57.

- Optional follow-up activity:** Students write a short text about themselves using five pictograms. Students work in pairs, A and B. They swap texts. Student A reads Student B's text and vice versa. To do so, they will need to interpret the pictograms.

Topic worksheet

- Pre-teach words you think the students may find difficult. Students write the parts of the plant. Next they read the sentences and match them with the pictures.

- They copy their favorite fact.

Key: leaves, fruit, roots, seeds.

Key: 1 b, 2 i, 3 f, 4 c, 5 g, 6 h, 7 d, 8 j, 9 e, 10 a

- Optional follow-up activity:** Help your students understand the dimensions by asking them, for example, to stand in a circle with a diameter of three meters or mark the length of the leaves, roots, and trees on the playground floor. Time how long it takes them to walk, jump, run, etc the same length.
